2. The permittee shall give advance notice to the department of any planned changes in the permitted facility or activity which may result in noncompliance with permit requirements.

## K. Signatory requirements.

1. Registration statement. All registration statements shall be signed as follows:

a. For a corporation: by a responsible corporate officer. For the purpose of this section, a responsible corporate officer means: (i) a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy-making or decision-making functions for the corporation, or (ii) the manager of one or more manufacturing, production, or operating facilities, provided the manager is authorized to make management decisions that govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiating and directing other comprehensive measures to assure long-term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit application requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures;

b. For a partnership or sole proprietorship: by a general partner or the proprietor, respectively; or

c. For a municipality, state, federal, or other public agency: by either a principal executive officer or ranking elected official. For purposes of this section, a principal executive officer of a public agency includes: (i) the chief executive officer of the agency, or (ii) a senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency.

2. Reporting requirements. All reports required by permits and other information requested by the board shall be

signed by a person described in Part II K 1 or by a duly authorized representative of that person. A person is a duly authorized representative only if:

a. The authorization is made in writing by a person described in Part II K 1;

b. The authorization specifies either an individual or a position having responsibility for the overall operation of the regulated facility or activity such as the position of plant manager, operator of a well or a well field, superintendent, position of equivalent responsibility, or an individual or position having overall responsibility for environmental matters for the company. A duly authorized representative may thus be either a named individual or any individual occupying a named position; and

c. The written authorization is submitted to the department.

3. Changes to authorization. If an authorization under Part II K 2 is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, a new authorization satisfying the requirements of Part II K 2 shall be submitted to the department prior to or together with any reports or information to be signed by an authorized representative.

4. Certification. Any person signing a document under Part II K 1 or 2 shall make the following certification:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to ensure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

L. Duty to comply. The permittee shall comply with all conditions of this permit. Any permit noncompliance constitutes a violation of the State Water Control Law and the Clean Water Act, except that noncompliance with certain provisions of this permit may constitute a violation of the State Water Control Law but not the Clean Water Act. Permit noncompliance is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or denial of a permit renewal application.

The permittee shall comply with effluent standards or prohibitions established under § 307(a) of the Clean Water Act for toxic pollutants and with standards for sewage sludge use or disposal established under § 405(d) of the Clean Water Act within the time provided in the regulations that establish these standards or prohibitions or standards for sewage sludge use or disposal, even if this permit has not yet been modified to incorporate the requirement.

M. Duty to reapply. If the permittee wishes to continue an activity regulated by this permit after the expiration date of this permit, the permittee shall submit a new registration statement

at least 180 days before the expiration date of the existing permit, unless permission for a later date has been granted by the board. The board shall not grant permission for registration statements to be submitted later than the expiration date of the existing permit.

N. Effect of a permit. This permit does not convey any property rights in either real or personal property or any exclusive privileges, nor does it authorize any injury to private property or invasion of personal rights, or any infringement of federal, state or local law or regulations.

O. State law. Nothing in this permit shall be construed to preclude the institution of any legal action under, or relieve the permittee from any responsibilities, liabilities, or penalties established pursuant to any other state law or regulation or under authority preserved by § 510 of the Clean Water Act. Except as provided in permit conditions on "bypassing" (Part II U) and "upset" (Part II V), nothing in this permit shall be construed to relieve the permittee from civil and criminal penalties for noncompliance.

P. Oil and hazardous substance liability. Nothing in this permit shall be construed to preclude the institution of any legal action or relieve the permittee from any responsibilities, liabilities, or penalties to which the permittee is or may be subject under Article 11 (§ 62.1-44.34:14 et seq.) of the State Water Control Law.

Q. Proper operation and maintenance. The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the conditions of this permit. Proper operation and maintenance also includes effective plant performance, adequate funding, adequate staffing, and adequate laboratory and process controls, including appropriate quality assurance procedures. This provision requires the operation of back-up or auxiliary facilities or similar systems which are installed by the permittee only when the operation is necessary to achieve compliance with the conditions of this permit.

R. Disposal of solids or sludges. Solids, sludges or other pollutants removed in the course of treatment or management of pollutants shall be disposed of in a manner so as to prevent any pollutant from such materials from entering state waters.

S. Duty to mitigate. The permittee shall take all reasonable steps to minimize or prevent any discharge or sludge use or disposal in violation of this permit which has a reasonable likelihood of adversely affecting human health or the environment.

T. Need to halt or reduce activity not a defense. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

#### U. Bypass.

1. The permittee may allow any bypass to occur which does not cause effluent limitations to be exceeded, but only if it also is for essential maintenance to assure efficient operation. These bypasses are not subject to the provisions of Part II U 2 and U 3.

#### 2. Notice.

a. Anticipated bypass. If the permittee knows in advance of the need for a bypass, prior notice shall be submitted, if possible, at least 10 days before the date of the bypass.

b. Unanticipated bypass. The permittee shall submit notice of an unanticipated bypass as required in Part II I.

#### 3. Prohibition of bypass.

a. Bypass is prohibited, and the board may take enforcement action against a permittee for bypass, unless:

(1) Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;

(2) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate back-up equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

(3) The permittee submitted notices as required under Part II U 2.

b. The board may approve an anticipated bypass, after considering its adverse effects, if the board determines that it will meet the three conditions listed in Part II U 3 a.

#### V. Upset.

1. An upset constitutes an affirmative defense to an action brought for noncompliance with technology based permit effluent limitations if the requirements of Part II V 2 are met. A determination made during administrative review of claims that noncompliance was caused by upset, and before an action for noncompliance, is not a final administrative action subject to judicial review.

2. A permittee who wishes to establish the affirmative defense of upset shall demonstrate through properly signed, contemporaneous operating logs, or other relevant evidence that:

a. An upset occurred and that the permittee can identify the causes of the upset;

b. The permitted facility was at the time being properly operated;

c. The permittee submitted notice of the upset as required in Part II I; and

d. The permittee complied with any remedial measures required under Part II S.

3. In any enforcement proceeding the permittee seeking to establish the occurrence of an upset has the burden of proof.

W. Inspection and entry. The permittee shall allow the director, or an authorized representative, upon presentation of

1. Enter upon the permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit;
2. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;
3. Inspect at reasonable times any facilities, equipment (including monitoring and control equipment), practices, or operations regulated or required under this permit; and
4. Sample or monitor at reasonable times, for the purposes of assuring permit compliance or as otherwise authorized by the Clean Water Act and the State Water Control Law, any substances or parameters at any location.

For purposes of this section, the time for inspection shall be deemed reasonable during regular business hours, and whenever the facility is discharging. Nothing contained herein shall make an inspection unreasonable during an emergency.

X. Permit actions. Permits may be modified, revoked and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a notification of planned changes or anticipated noncompliance does not stay any permit condition.

Y. Transfer of permits.

1. Permits are not transferable to any person except after notice to the department. Except as provided in Part II Y 2, a permit may be transferred by the permittee to a new owner or operator only if the permit has been modified or revoked and reissued, or a minor modification made, to identify the new permittee and incorporate such other requirements as may be necessary under the State Water Control Law and the Clean Water Act.
2. As an alternative to transfers under Part II Y 1, this permit may be automatically transferred to a new permittee if:
  - a. The current permittee notifies the department at least 30 days in advance of the proposed transfer of the title to the facility or property;
  - b. The notice includes a written agreement between the existing and new permittees containing a specific date for transfer of permit responsibility, coverage, and liability between them; and
  - c. The board does not notify the existing permittee and the proposed new permittee of its intent to modify or revoke and reissue the permit. If this notice is not received, the transfer is effective on the date specified in the agreement mentioned in Part II Y 2 b.

Z. Severability. The provisions of this permit are severable, and, if any provision of this permit or the application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances, and the remainder of this permit, shall not be affected thereby.

**Summary:**

*The amendment corrects the total phosphorus allocation for Tyson Foods - Temperanceville from 980 pounds per year to 1,142 pounds per year. At the State Water Control Board meeting on September 21, 2005, nutrient waste load allocations were adopted for significant dischargers in the Shenandoah-Potomac, Rappahannock, and Eastern Shore Basins. The board was notified that these final allocations accounted for changes based on revised design flow values for some facilities, and waste loads for all the listed dischargers shown in whole pounds per year, rather than rounded off to two significant figures as shown in previous draft amendments. Upon close review of the final regulation text, it was noted that the total phosphorus allocation for Tyson Foods - Temperanceville was still shown as rounded off to two significant figures and did not account for a revision to the design flow value, while the total nitrogen allocation was correct. The total phosphorus sum for the Eastern Shore Basin dischargers was also correct, necessitating only a technical correction to the individual value for Tyson's total phosphorus allocation.*

**Statutory Authority:** §§ 32.1-324 and 32.1-325 of the Code of Virginia.

**Public Hearing Date:** N/A -- Public comments may be submitted until June 16, 2006.

(See Calendar of Events section for additional information)

**Effective Date:** July 3, 2006.

**Agency Contact:** Adrienne Fegans, Administration/Director's Office, Department of Medical Assistance Services, 600 East Broad Street, Suite 1300, Richmond, VA 23219, telephone (804) 786-4112, FAX (804) 786-1680, or e-mail adrienne.fegans@dmas.virginia.gov.

**Basis:** Section 32.1-325 of the Code of Virginia grants to the Board of Medical Assistance Services the authority to administer and amend the Plan for Medical Assistance. Section 32.1-324 of the Code of Virginia authorizes the Director of DMAS to administer and amend the Plan for Medical Assistance according to the board's requirements.

The Medicaid authority as established by § 1902 (a) of the Social Security Act (42 USC § 1396a) provides governing authority for payments for services.

Item 322 J of the 2003 Appropriation Act directed DMAS to collect and report information on all new prior authorization requirements implemented on or after the start of state fiscal year (FY) 2004. As a result of the findings of this study, the department is making the regulatory changes necessary to make the prior authorization process for outpatient psychiatric services more efficient for providers. In this regulatory action, DMAS is modifying the service limit for outpatient psychiatric services during the patient's first treatment year.

Item 325 WW of the 2003 Appropriation Act directed DMAS to promulgate emergency regulations to require prior authorization of MRI, CAT, and PET scans. It is not changing its MRI/CAT/PET scan preauthorization program, but it provides clarification for its providers.

**Purpose:** One purpose of this action is to implement changes to the prior authorization procedures for outpatient psychiatric services to make the process more efficient for providers. The significant change is modifying the service limit on outpatient

psychiatric services and allowing for 26 visits in the first year of treatment without prior authorization, and up to an additional 26 visits during the first year of treatment with authorization. All outpatient psychiatric services rendered after the first treatment year will continue to require prior authorization.

This prior authorization change will protect the health and welfare of Medicaid recipients as they initially access outpatient psychiatric services. The provider will be able to thoroughly evaluate the patient's needs, and develop and implement a treatment plan during the 26 initial visits before prior authorization is required.

When the codes were selected for the prior authorization of MRI/CAT/PET scans, DMAS included both MRA and CTA procedure codes. These procedures were not considered by DMAS as different from other MRI or CAT scans. This regulatory action will also provide clarification of the DMAS MRI/CAT/PET scan preauthorization program that is currently in place.

**Substance:** Outpatient psychiatric services are currently limited to an initial availability of five sessions, without prior authorization during the first treatment year. This regulatory action will change that to an initial availability of 26 sessions, without prior authorization during the first treatment year. Currently, an additional extension of up to 47 sessions during the first treatment year must be prior authorized by DMAS or its designee. This regulatory action will change that to an additional extension of up to 26 sessions during the first treatment year.

In addition, this regulatory action provides needed clarification of the MRI/CAT/PET scan preauthorization program currently in place, and changes one of the words that form the acronym CAT from "Computer" to "Computerized."

**Issues:** There are no disadvantages to the public for the approval of the proposed regulations for prior authorization. The advantages to the public are that the prior authorization process will be more efficient for providers and more in line with industry standards. For outpatient psychiatric services, Medicaid currently pays for five visits in the first year of treatment before a prior authorization is required. While this appears straightforward, it is actually difficult for providers to navigate. The difficulty is that the current limit of five is reached quickly, is not per provider, and providers do not know if a recipient has already received five visits with another provider. Likewise, DMAS does not know that the first five visits have been provided until the Agency has been billed.

There are no disadvantages to the public for the approval of the proposed regulations pertaining to outpatient, nonemergent MRI/CAT/PET scans. The prior authorization process has not changed. This regulatory action merely clarifies the standards that providers are already following. The advantage to both the providers and DMAS is that the providers will have a better understanding of the regulation.

Rationale for Using Fast-Track Process: Because the department obtained input from providers during the study on more efficient prior authorization requirements, it is anticipated that there will be no opposition to these requested regulatory changes to the prior authorization processes for outpatient psychiatric services provided to Medicaid fee-for-service clients.

Further, DMAS does not expect opposition to the regulation pertaining to the MRI/CAT/PET scan preauthorization program. The regulations are already in place. No additional scans have been added to the prior authorization process. This regulatory change merely provides clarification to providers of the agency's intent for the outpatient scan preauthorization program.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the proposed regulation. The proposed regulations will increase the number of initial outpatient psychiatric visits for which no prior authorization required from five sessions during the first year to 26 sessions, making the prior authorization requirements less stringent. Additionally, the proposed changes will make several clarifications to the existing prior authorization requirements to avoid confusion.

Result of analysis. The benefits likely exceed the costs for all proposed changes.

Estimated economic impact. The proposed regulations will make the prior authorization requirements for outpatient psychiatric visits less stringent. Currently, no prior authorization is required for the initial five sessions during the first year of the treatment. Starting with the sixth session, providers must obtain prior authorization from the Department of Medical Assistance Services (DMAS). With the proposed changes, providers will be able to provide up to 26 initial sessions during the first year of the treatment without having to obtain prior authorization from DMAS.

Prior authorization is a well-known cost-containment mechanism. It increases the costs of providing care and provides incentives to refrain from unnecessary outpatient psychiatric treatment. The costlier the prior authorization requirement, the stronger the incentives to not overutilize. However, the prior authorization mechanism also increases the costs of providing necessary care alike and may discourage the use of needed services. In addition, the prior authorization mechanism imposes significant administrative costs on DMAS just as it does on providers.

The fiscal effect of the proposed less stringent prior authorization requirements will be to reduce administrative expenses incurred by DMAS and by providers and to increase outpatient treatment expenditures as some of the services that would be denied under the current regulations would be paid under the proposed regulations. According to DMAS, in FY 2005, six full-time employees were handling the prior authorization requests with combined annual salaries of approximately \$240,000. However, DMAS has plans in place to transfer the prior authorization function to a contractor. In fact, a contract is already signed assuming a prior authorization limit of 26 as proposed rather than five as currently exists. DMAS estimates that an additional \$350,000

would be required to adjust the prior authorization limit in the contract from 26 to five. This indicates that the administrative costs of the more stringent prior authorization program to DMAS are about \$350,000.

The fiscal effect of the proposed changes on outpatient treatment expenditures could be estimated by using denial rates and average cost per outpatient psychiatric claim. Before 2003, prior authorization was required after the 26th outpatient psychiatric session in the first year. In 2003, General Assembly mandated that prior authorization be obtained after the fifth session<sup>1</sup>. Thus, in essence, the proposed changes will revert back to the prior authorization requirements that existed before 2003, providing an opportunity to estimate the potential impact on denial rates.

Based on the available data, in FY 2002, when prior authorization was required after the 26th session, the denial rate was very small (0.4%). In other words, almost all of the prior authorization applications were approved. In FY 2004, prior authorization was required starting with the sixth session rather than 27<sup>th</sup>. Under more stringent prior authorization requirements, the denial rate increased significantly to 4.3% of the requests. Moreover, in FY 2005, the denial rate almost doubled to 8.1% of the requests. In the first quarter of FY 2006, the denial rate went down to 2.1%. Considering denied treatment requests would have been paid under the less stringent requirements, this data seems to suggest that the proposed changes would increase outpatient psychiatric treatment expenditures significantly. However, according to DMAS, due to reporting changes and other factors such as managed care expansions, the changes in denial rates cannot be solely attributed to the change in prior authorization requirements and hence are not useful for estimating the fiscal impact of the proposed changes.

While the existing denial data is not reliable to estimate the fiscal impact on medical expenditures, in order to justify a \$350,000 increase in contract costs, the denial rate must decrease by 20.4% from their current level, which is practically impossible<sup>2</sup>. After carefully analyzing historical denial data, DMAS' best estimate for clinical necessity denials is about only 1.5% to 2%. Given this denial rate, the benefits of the proposed changes will significantly exceed the costs. For example, if the proposed less stringent prior authorization requirements reduce the denial rate to "0%" and the average cost per claim is about \$65, we could expect at the most about a \$34,261 increase in outpatient treatment expenditures while the administrative savings would be about \$350,000. In addition, there will be administrative savings to providers. Thus, expected administrative savings to DMAS and the providers seem to greatly outweigh the expected increase in medical expenditures as a result of less claims being denied.

The expected net fiscal benefit from the proposed less stringent prior authorization requirements are likely to be offset to some degree by the adverse incentives it will provide to providers. Less stringent prior authorization requirements may weaken provider incentives not to overutilize outpatient

psychiatric services and add to the medical expenditures. Even though the overutilization is possible, its magnitude is unlikely to be at a level that is sufficient to render the proposed changes cost ineffective.

The remaining proposed changes will clarify that MRAs and CTAs are subject to prior authorization requirements just as MRIs and CATs. When the prior authorization requirements for these diagnostic scans were adopted, the language did not specifically list MRAs and CTAs as requiring prior authorization because DMAS never considered these tests being significantly different from MRIs and CATs. Upon realizing significant confusion among the providers, DMAS issued a memorandum in 2003 to clarify the intent of the regulation. Even though the confusion has been addressed by the 2003 memorandum, the proposed changes will clarify the regulatory language. Thus, no significant economic impact is expected from this particular proposed change other than reducing the likelihood of confusion among the providers who may be unaware of the 2003 memorandum.

**Businesses and entities affected.** The proposed outpatient psychiatric prior authorization requirements apply to approximately 600 psychiatrists, 1,104 clinical psychologists, 98 psychiatric clinical nurse specialists, 1,769 licensed clinical social workers, 1,117 licensed professional counselors, 12 marriage and family therapists, and 40 Community Service Boards. The other proposed changes apply to 98 hospitals, approximately, 4,150 radiologists, and 152 independent labs. Also, the recipients utilizing services from all of these providers will be affected.

**Localities particularly affected.** The proposed regulations apply throughout the Commonwealth.

**Projected impact on employment.** Less stringent prior authorization requirements are expected to reduce the staffing needs of the contractor who will be administering this program and the providers as a result of lower number of prior authorization requests that will be initiated and decided. Thus, a reduction in demand for labor is expected.

**Effects on the use and value of private property.** The proposed regulations are expected to provide some administrative savings to the providers. Lower administrative savings should improve their profitability and contribute to asset values of their businesses.

**Small businesses: costs and other effects.** All of the affected entities except recipients, hospitals, and Community Service Boards could be considered as small businesses. As, discussed, these small businesses are likely to see a reduction in administrative costs associated with the reduced number of prior authorizations that have to be secured before providing services.

**Small businesses: alternative method that minimizes adverse impact.** The proposed regulations are not anticipated to create an adverse impact on small businesses.

**Legal mandate.** The Department of Planning and Budget (DPB) has analyzed the economic impact of this proposed regulation in accordance with § 2.2-4007 H of the Administrative Process Act and Executive Order Number 21 (02). Section 2.2-4007 H requires that such economic impact

analyses include, but need not be limited to, the projected number of businesses or other entities to whom the regulation would apply, the identity of any localities and types of businesses or other entities particularly affected, the projected number of persons and employment positions to be affected, the projected costs to affected businesses or entities to implement or comply with the regulation, and the impact on the use and value of private property. Further, if the proposed regulation has an adverse effect on small businesses, § 2.2-4007 H requires that such economic impact analyses include (i) an identification and estimate of the number of small businesses subject to the regulation; (ii) the projected reporting, recordkeeping, and other administrative costs required for small businesses to comply with the regulation, including the type of professional skills necessary for preparing required reports and other documents; (iii) a statement of the probable effect of the regulation on affected small businesses; and (iv) a description of any less intrusive or less costly alternative methods of achieving the purpose of the regulation. The analysis presented above represents DPB's best estimate of these economic impacts.

Agency's Response to the Department of Planning and Budget's Economic Impact Analysis: The agency has reviewed the economic impact analysis prepared by the Department of Planning and Budget regarding the regulations concerning Amount, Duration, and Scope of Medical and Remedial Care Services (12 VAC 30-50) and Family Access to Medical Insurance Security Plan (FAMIS) (12 VAC 30-141). The agency raises no issues with the analysis prepared by the Department of Planning and Budget.

### Summary:

### Total Maximum Daily Load (TMDL) - Lynnhaven Bay, Broad Bay and Linkhorn Bay

The Department of Environmental Quality (DEQ), the Department of Conservation and Recreation, the Hampton Roads Planning District Commission (HRPDC), and the City of Virginia Beach seek written and oral comments from interested persons on the DRAFT Implementation Plan to begin to achieve the total maximum daily load (TMDL) targets established for fecal coliform bacteria in Lynnhaven Bay, Broad Bay and Linkhorn Bay in Virginia Beach, Virginia.

The Final Bacteria TMDL report that establishes the loading limits for the Lynnhaven, Broad and Linkhorn Bays is available on DEQ's website at <http://www.deq.virginia.gov>. These waters are identified in Virginia's 1998 303(d) TMDL Priority List and Report as impaired due to violations of the state's water quality standard for fecal coliform bacteria in shellfish waters.

Section 303(d) of the Clean Water Act and § 62.1-44.19:7 C of the Code of Virginia require DEQ to develop TMDLs for pollutants responsible for each impaired water contained in Virginia's 303(d) TMDL Priority List and Report. The Code of Virginia further requires DEQ to prepare implementation plans for the TMDL and take measures to implement those plans.

This second public meeting on the development of the Lynnhaven, Broad and Linkhorn Bay TMDL implementation plan will be held on Thursday, May 4, 2006, at 7 p.m. at the Princess Anne High School, 4000 Virginia Beach Boulevard, Virginia Beach, Virginia. This meeting specifically seeks public comments on the strategies and actions developed and enumerated in the draft implementation plan to achieve the water quality goals for the fecal bacteria for the greater Lynnhaven River Watershed in Virginia Beach.

The public comment period will begin on May 5, 2006, and end on June 4, 2006. Copies of the report are available at the DEQ website, <http://www.deq.virginia.gov/tmdl/>, the Hampton Roads Planning District Commission website [http://www.hrpdc.org/RFP\\_RFQs/Public%20Notices1.shtml](http://www.hrpdc.org/RFP_RFQs/Public%20Notices1.shtml), and the City of Virginia Beach website [http://www.vbgov.com/city\\_hall/hot\\_topics/](http://www.vbgov.com/city_hall/hot_topics/). Questions or information requests should be addressed to Chester Bigelow at DEQ, John Carlock at the HRPDC, or Steve McLaughlin at the City of Virginia Beach and should include the name, address, and telephone number of the person submitting the comments. Requests should be sent to Chester Bigelow, Department of Environmental Quality, 629 East Main Street, Richmond, VA 23240, telephone (804) 698-4554, FAX (804) 698-4116, or e-mail [cbigelow@deq.virginia.gov](mailto:cbigelow@deq.virginia.gov); John M. ## DEPARTMENT OF CONSERVATION AND RECREATION

† **April 25, 2006 - 7:30 p.m.** -- Public Hearing

Albemarle County Office Building, 1600 5th Street, Meeting Room A, Charlottesville, Virginia. 

A public hearing regarding the realignment of the Thomas Jefferson Soil and Water Conservation District. The public is invited to comment on the request of the City of Charlottesville to join the existing organization of the Thomas Jefferson Soil and Water Conservation District (TJSWCD). On March 16, 2006, the Virginia Soil and Water Conservation Board approved a petition from Charlottesville City suggesting the need for realigning the existing Thomas Jefferson Soil and Water Conservation District by including the City of Charlottesville. State law empowers the board to review and decide about the formation of districts and resolve changes with district boundaries. The TJSWCD is a political subdivision of the Commonwealth and is currently comprised of Albemarle, Fluvanna, Louisa, and Nelson counties. Virginia's 47 soil and water conservation districts promote natural resource conservation and stewardship, and work directly with landowners, property managers and other citizens. Among the reasons presented by Charlottesville City for joining the TJSWCD are the ability to participate in the rapidly expanding area of available conservation programs that require the expertise and assistance of conservation districts, primarily from a water quality standpoint; the ability to utilize and work with the TJSWCD in technical and educational programs; a need for local elected representation knowledgeable in conservation issues to serve the City of Charlottesville; and the need to more effectively and efficiently implement environmental management programs. NOTE: Verbal and written comments provided to the board will be considered as the board makes its decision. The board reserves the right to limit the comment time period for each speaker to a reasonable time period. The board will accept written comments received by close of business May 1, 2006, from all interested parties. Forward comments to VSWCB Chair, 203 Governor Street, Suite 206, Richmond, VA 23219.
